

Times of the Gentiles
(Lk. 21:24)

An extended period of time in which the land given in covenant by God to Abraham and his descendants is occupied by Gentile powers and the Davidic throne is empty of any rightful heir in the Davidic line. Start? Neb's invasion of 605 BC. End? Christ's return.

ATTN: PRESIDENT TRUMP XI & OBAMA RELEASED IT!

Alex Jones breaks down how the U.S. government under former President Obama helped fund China's Wuhan biolab, specifically with experimentation on coronavirus with local bats, and why the institutions who helped fund this research are the same entities spearheading the global response to the coronavirus outbreak. Bioweapons expert Dr. Francis Boyle joins the show to discuss the implications behind these revelations and what it means for the future of U.S.-China relations. Internal Chinese government documents obtained by the Associated Press prove that Chinese Communist President Xi Jinping knew for sure that the outbreak of coronavirus in China was an "epidemic" and was highly contagious between humans in mid January, yet simultaneously China told the World Health Organization (WHO) that there was no "evidence of human -to-human transmission."

AMERICA WE HAVE BEEN ASSAULTED BY CHINA!

RUSH LIMBAUGH: Do you realize Dr. Fauci's being turned to as an expert on reopening? He's being turned to as an expert on when it's coming back. He's being turned to as the expert on reopening schools. He's the expert on how to operate restaurants when they reopen. Dr. Fauci is being turned to as the totally accountable and you-can't-question-what-he-says expert on all of these things that have nothing to do with his medical qualifications. This is not right. It's grossly unfair to President Trump. It's grossly unfair to all of us. So to review... Repetition is a primary ingredient to persuasion. "Coronavirus is not a major threat for the people in the United States, and this is not something the citizens should be worried about," Dr. Anthony Fauci January 21st. Five days later on a podcast with the New York grocery store magnate, John Catsimatidis. *RUSH: I think Dr Fauci has been swimming too long in the DC Swamp! We hired President Trump to drain these swamp Monsters from trying to take control of this Nation for the Anti-American Demonrat Party!

CHINA WILL KILL 1/4 OF THE WORLD! YES* BIBLE!

The battle of Armageddon refers to the final war between human governments/ China, Russia, Medes & Persa and Yahuweh/God American Tea Party Freedom Fighters. These governments and their supporters oppose God even now by refusing to submit to his rulership. (Psalm 2:2) The battle of Armageddon will bring human rulership to an end.—Daniel 2:44. The word “Armageddon” occurs only once in the Bible, at Revelation 16:16. Prophetically, Revelation shows that at “the place that is called in Hebrew Armageddon,” “the kings of the entire inhabited earth” will be gathered “together to the war of the great day of God the Almighty.”—Revelation 16:14. **Who will fight at Armageddon?** **THE FOUR HORSEMAN** will lead a heavenly army to victory over God’s enemies. (Revelation 19:11-16, 19-21) These enemies include those who oppose God’s authority and who treat God with contempt.—Ezekiel 39:7.

Does Google Have Hillary Clinton's Emails? Court Authorizes Subpoena to Find Out

If you use Gmail, you know that Google holds your messages seemingly forever. Could it be doing the same with Hillary Clinton's elusive emails? We'll find out. We have served a subpoena, authorized by a DC federal court, on Google to produce all Clinton emails from a Google account believed to contain former Secretary of State Hillary Clinton's emails. Platte River Networks' IT specialist Paul Combetta reportedly used the Google account to transfer Clinton's emails from a laptop to a Platte River server, then used Bleach Bit to remove any traces of the emails from the laptop. This subpoena comes in our lawsuit that seeks records concerning “talking points or updates on the Benghazi attack” (Judicial Watch v. U.S. Department of State (No. 1:14-cv-01242)). We famously uncovered in 2014 that the “talking points” that provided the basis for Susan Rice's false statements were created by the Obama White House.

This Freedom of Information Act (FOIA) lawsuit led directly to the disclosure of the Clinton email system in 2015. During an August 2019 federal court hearing, U.S District Court Judge Royce Lamberth raised concerns about Clinton's Gmail cache and ordered us to “shake this tree” on the issue. Judge Lamberth noted that Senator Grassley released: Judicial Watch seeks to subpoena Google for relevant documents and records associated with Secretary Clinton's emails during her tenure at State.... The subpoena seeks to discover new emails, so it certainly relates to whether the State conducted an adequate search.

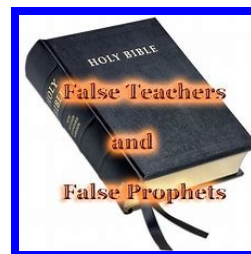

ATTN: PRESIDENT TRUMP IS BARR GIVING JUSTICE?

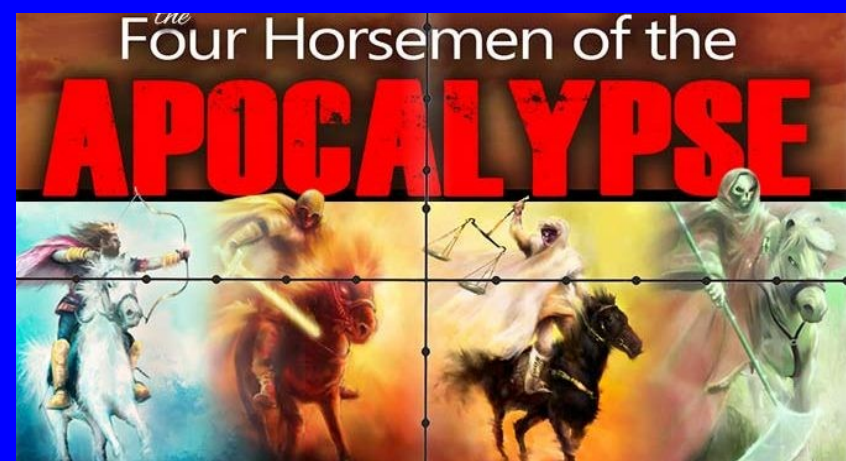

RUSH LIMBAUGH: All right. So Dr. Fauci says, "I can't guarantee the November election can proceed normally." Is the National Institutes of Health in charge of federal elections? Is the director of the National Institutes of Health in charge of any aspect of the American economy? Is the National Institutes of Health responsible for determining when schools can open? Well, maybe you might if I ask the question that way. But should they be involved, should they be consulted. But when did the National Institute of Health become the source authority for the reopening of various segments of our country? Dr. Fauci, quote, "I can't guarantee the November election can proceed normally." I didn't know that the NIH guaranteed the integrity and the even occurrence of the execution of presidential elections. I didn't know this. We have Dr. Fauci on tape saying many of these quotes I've attributed. Here's number 8. January 21st, Dr. Fauci on NewsMax, the show called Greg Kelly Reports. He said to Dr. Fauci, "Bottom line, we don't have to worry about this coronavirus, right?" RUSH: Well I think the deep state tried the Russia Hoax! Then they tried the phone call Hoax! Now we have the Chinese bio-weapon released that is a Medical Hoax to lock-down this Nation before the 2020 Election! Look at who they have running? Bite me, Obama, Hillary Ghost?

WE HAVE ENTERED! NO FAKE RAPTURE!

The rapture, often called "the blessed hope," is sadly more hoax than hope, even though the man who started it had no intention of deceiving anyone. You need to know what the Bible actually says! Postmillennialism gives life to the idea of "the social gospel" and the belief that the Church can actually bring about the Kingdom by its actions. It has led to many Christian churches involving themselves in politics on the premise that they are virtually obligated to lobby governments in the direction of godliness. The rapture is widely taught and believed in Christianity today. Popular books and movies spin themes around this doctrine that essentially teaches Christ will come back twice, first coming only into the atmosphere to snatch believers away to heaven for several years; then actually returning to set foot on the earth.

LEADERS OF THE 12 TRIBES- JUDAH/EPHRIAM/DAN/RUBEN

But Joseph's descendants were to become more than just tribes within a small nation in ancient times. Israel foretold in Genesis 48:19 that while the descendants of Manasseh would become a "great" people (or nation), the descendants of Ephraim would become a "multitude of nations." Since Joseph was expanded into two tribes, this meant that there would now be 13 tribes of Israel, although they were often still known as "the 12 tribes of Israel" because the priestly tribe, the Levites, did not receive a territorial inheritance in the Promised Land. In the blessings recorded in Genesis 49, Israel gave prophecies for each of the tribes named after his 12 sons. The 12 sons of Israel are Reuben, Simeon, Levi, Judah, Zebulun, Issachar, Dan, Gad, Asher, Naphtali, Joseph and Benjamin. The tribe most recognized by modern readers is Judah. Judah's descendants have long been called "Jews." However, Judah is just one of the sons of Israel. The vast majority of Israel's descendants came from the other sons who were not called Jews but Israelites.

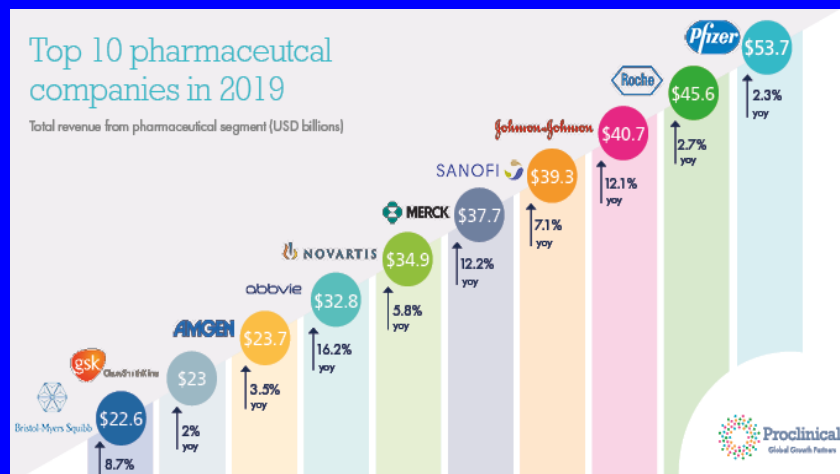

NO CHIPS NO CARDS!! THESE ARE THE MARKS!

RUSH LIMBAUGH: The same law that sought to create the uniform patient identifier also authorized creation of misnamed federal medical privacy regulations that allow government officials and certain private interests to access medical records without patients' consent. Federally mandated healthcare IDs and databases will weaken healthcare. Patients must provide details regarding their personal lives and habits so their physicians can make diagnoses. How comfortable would people be sharing this information if they knew it would be stored in a federal "health tracking" database? (NO STATE RAN HEALTH-CARE)

Bill Gates has suggested that when a coronavirus vaccine is developed individuals should be issued digital certificates proving they received the vaccine. Similarly, coronavirus fearmonger-in-chief Dr. Anthony Fauci has floated the idea that Americans who have been vaccinated for coronavirus or have in the past contracted the virus be issued "coronavirus immunity cards." Bill Gates has suggested that when a coronavirus vaccine is developed individuals should be issued digital certificates proving they received the vaccine. Similarly, coronavirus fearmonger-in-chief Dr. Anthony Fauci has floated the idea that Americans who have been vaccinated for coronavirus or have in the past contracted the virus be issued "coronavirus immunity cards." Implementing Gates' or Fauci's suggestions could lead to people being forced to receive a coronavirus vaccine or suffer legal penalties. **Those who value liberty must do all they can to ensure authoritarians like Gates and Fauci do not make respect for our right to control our healthcare a casualty of the coronavirus panic.**

Top 10 pharmaceutical companies in 2019

Total revenue from pharmaceutical segment (USD billions)

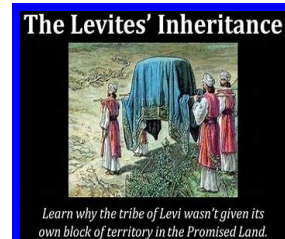

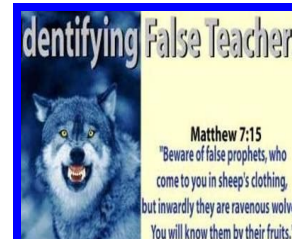

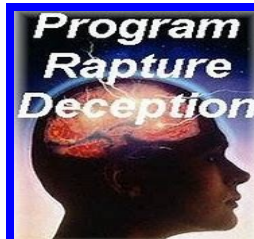

ATTN: PRESIDENT TRUMP EXECUTIVE ORDER DRUGS

The global pharmaceutical industry reached unprecedented heights in 2018, being estimated at an astounding \$1.11 trillion. By 2020, this figure is set to rise to \$1.43 trillion. With rising pressure to develop drugs to meet ever-increasing global demand, pharmaceutical companies continue to work tirelessly to bring the most innovative and cutting-edge treatments to patients. Being a research-driven industry, approximately \$150 billion is spent by pharmaceutical companies every year on research and development projects. Out of thousands of compounds, only a small percentage gain regulatory approval to be used by patients to treat disease and improve quality of life. However, in 2018, a record number of novel drugs developed by pharmaceutical companies across the globe were approved by various regulatory bodies. A large proportion were approved by the US regulatory body, the FDA, which approved 55 novel drugs and smashed its record for generic approvals (781 up from 763 in 2017). Although the USA's market share of the global pharmaceutical industry is worth over \$341.1 billion, the Chinese, South East Asian, Eastern European and South American markets are beginning to emerge. For example, the Chinese market is rich with preclinical and early-phase drugs, and is a growing nucleus of biotech activity. Why would America let China make over 90 % of our drugs and supplies? President Trump needs a new committee to bring all drugs and medical equipment back to America! ASAP

ARE CHRISTIANS IDIOTS?

JUDGEMENT ON FALSE TEACHERS IN AMERICA!

The shepherds had not taken care of the flock. They had just used them the flock to make themselves fat and rich. The shepherds were the priests and political leaders of Israel/America (Ezk34). They had failed to take good care of the flock – the children of Israel. Today there are some bad Christian leaders who don't truly care for God's people. They just use people to further their own ends. They fail to truly care for God's people – the Church. The bad shepherds of Israel had selfishly used the flock to serve themselves. They ate the curds. **The kings and priests of Israel heavily taxed the people, causing a hardship in their daily existence.** The priests for their priestly services were allowed to take a moderate portion of goods brought to the temple, however they were not taking in moderation – they were taking the finest and the best. The bad Christian leaders of today do ministry to get money not to truly serve God. They want to live high on the hog (**Jer.33 David & Levi**). **They want large pay checks and extensive benefits. They don't mind if it causes other people hardship. They want millions for such things as Bible-themed amusement parks and private jets.**

END-TIME PROPHECY¹⁰¹ The Tribulation

There are two beasts in Revelation 13. One represents a political power, the other a religious power.

The mark of the beast is 666.

These two powers rule on the earth for 42 months or three and a half years.

CHINA & OBAMA/GATES! & THE JESUIT POPE OF ROME!

Pope Francis has replaced Pope Benedict XVI. You might think that a transition of popes would be of no interest to those watching for solid signs of the Apocalypse. Believers typically focus instead on approaching comets or asteroids (Rev 8:8), major earthquakes (Rev 6:12=Mt 24:7), pandemics (Mt 24:7), or wars and rumors of war involving Israel (Lk 21:20) and the like. But thanks to Saint Malachy's surprisingly accurate "prophecy of the popes" the prospect of a new pope to replace Pope Benedict XVI is big, exciting news for those hoping for Jesus to come in their lifetime. Another key point of interest for people who follow Bible prophecy is what Malachy says about the circumstances surrounding the last pope. Both Malachy and the Bible agree that he reigns during the Great Tribulation in which he plays a key role. Here's a translation of the lines for the last pope, pope number 112 - Peter the Roman: By the way, don't be surprised that Malachy says the church will be persecuted. Just because both Catholic and Protestant believers are part of Jesus' church does not mean they will automatically escape the Great Tribulation for their belief. I expect that most of today's roughly two billion believers will not escape the Great Tribulation. This is because it will take faith to act on God's escape instructions in time before the Tribulation starts. Many believers will have doubts or be deceived and not act. This will leave them in a position of disobedience without God's protection to be tortured into taking the Mark of the Beast just like most non-believers will. Some non-believers will become believers along the way, and some believers will be offended when there is no pretrib rapture and betray other believers over to the Beast and his mark (Mt 24:10).

RUSH LIMBAUGH: Well... (laughing) There was a lot of pushback? I wonder who Dr. Fauci's referring to? It has to be Trump. So Dr. Fauci says, essentially, in that bite, "If Trump had listened to our recommendations, we could have saved lives." Now, how does he get away with this? Politically. Forget the health aspect of this, because nobody is here challenging whether he's a qualified doctor. But he gets to go on CNN and basically not even be asked about his statements in January and February that the American people have nothing to worry about, that it's not a major threat. Why does he get away with that? Why is he not held accountable? "Well, Rush, not very many people heard Dr. Fauci say these things." I don't care. We can go back and tell everybody what he said and inform them. Dr. Fauci, five days later, "The American people should not be worried or frightened. It's a very, very low risk, not something the American people need to worry about." So that's January 21st, January 25th. On February 9th, he's saying, "If you want go to cruise ship and you're young, do it." Rush my advice Mr President Get a new team together who are all Pro- **HYDROXYCHLOROQUINE! *Act fast!**

ATTN: PRESIDENT TRUMP FIRE SWAMP MONSTER!

RUSH LIMBAUGH: Okay. So, in the brief break, the brief segment we have, let me review here. "Coronavirus is not a major threat for the people in the United States and this is not something the citizens should be worried about," Dr. Fauci, January 21st. He later said, "The American people..." Five days later, January 26: "The American people should not be worried or frightened by coronavirus. This is a very, very low risk to the United States. It isn't something the American public needs to be worried about or be frightened about." Five days later, after Fauci says no big deal, Trump issued a travel ban on China. Five days later. Today, Saturday, and all weekend: "Trump unprepared! People died! Trump lied. Trump lazy. Trump incompetent. Trump not engaged. Trump's lousy instincts." Dr. Fauci yesterday on CNN: "If Trump had listened to our recommendations, we could have saved lives sooner." DEEP STATE DR FAUCI! Wait, what? "Coronavirus is not a major threat and it's not something the citizens should be worried about," Dr. Fauci. "The American people should not be worried or frightened by it. It's very, very low risk." What? **RUSH: THIS PROVES DR FAUCI IS INCOMPETENT!**

ATTN: PRESIDENT TRUMP HYDROXYCHLOROQUINE A CURE!

RUSH: LIMBAUGH: Dr. Anthony Fauci, a now-recognizable face in the country's battle against the coronavirus, used a Friday morning appearance on "Fox & Friends" to caution against hyping up the anti-malarial drug hydroxychloroquine as a cure for the virus. Fox News' Steve Doocy asked the doctor about a poll that found that 73% of doctors in the world believe is the most effective medicine against the coronavirus and mentioned strong support he's seen from guests on the network, notably Dr. Mehmet Oz. Fauci dismissed the study, saying it wasn't very "robust." Are you nuts? Says Rush. Since Trump first started promoting the drug combo, supplies have been disappearing from pharmacy shelves. The U.S. Food and Drug Administration allowed an Indian company previously restricted from importing drug products into the US to now start manufacturing one of the drugs. And U.S. plants began gearing up to produce enough to meet the surge in demand. Azithromycin is an antibiotic, usually prescribed for a range of bacterial infections, including bacterial pneumonia. Hydroxychloroquine is a slightly different version of chloroquine, a drug discovered to fight malaria during a massive war-time drug discovery effort in the 1940s. Since then, resistance to chloroquine has made it unusable in many parts of the world, so scientists developed hydroxychloroquine as its next generation replacement, and designed it with slightly fewer side effects. Today, it is used to treat malaria, but in the US, it's mainly prescribed to treat the inflammation related to autoimmune disorders.

MR PRESIDENT! *HELP* *FREE THE BLUE STATES!

RUSH LIMBAUGH: I want to give this guy the benefit of the doubt, Governor Murphy, but one thing is clear. He was telling the truth when he said the Bill of Rights was "above his pay grade." It ought not be. He's the governor of one of the largest states by population in the country. "It's above my pay grade, Tucker. I wasn't thinking of the Bill of Rights when we did this." Okay. So he's not alone. The people who are advocating shutting down this economy, advocating/mandating that you stay at home — mandating that you can't do this, you can't do that, you can't go here, you can't go there — don't even care about the Constitution. Or, giving him the benefit of the doubt, he didn't even stop to think about it. He didn't even stop to think about whether or not people's constitutional rights were respected. Is this pandemic, is this virus worth throwing away people's constitutional liberties? Is it worth that? Is staying away from it worth it? **Because if it is, get ready, because there are gonna be a whole lot of things that happen following this virus that are gonna be said to be worth suspending constitutional rights. These governors and mayors are getting off on this newfound power. But this, folks, is dangerously shocking. You watch Governor Murphy, and he looks harmless on TV. He looks like all he's doing is his best, trying to implement his best practices to save lives. He doesn't...? He didn't even think of the Bill of Rights? Wouldn't you think that somebody that's a governor would at least try to balance these competing interests? He didn't even consider them — and he's not alone.**

GOVERNOR DICTATORS FEDERAL OVERRIDES STATE

RUSH LIMBAUGH: Last night — now, this is earth-shattering in its own way — the governor of New Jersey was on Fox with Tucker Carlson. I want you to grab sound bite number 11. His name is Phil Murphy. By the way, there are uprisings all over this country against governors and their restrictions. It's happening. People aren't gonna put up with this. People instinctively know we've gotta get back to work. We have to reopen the economy. People instinctively know now that however bad this is, it isn't as bad as they all told us. This is Tucker Carlson talking to New Jersey governor Phil Murphy. Question: "The Bill of Rights, as you well know..." (chuckles) I don't... I wouldn't be surprised if Governor Murphy had to stop and think about, "What are the Bill of Rights?" He knows kind of what they are but where are they, you know, and how many of them are there, and what it actually is? He may not know. Wait 'til you hear the answer here. Question: "The Bill of Rights, as you well know, protects Americans, enshrines their right to their religion as they see fit, to congregate together, to assemble peacefully. By what authority did you nullify the Bill of Rights in issuing this order? How do you have the power, as the governor of New Jersey — of any state — to simply, with a wave of your hand, nullify people's constitutional rights as enumerate in the Bill of Rights?" MURPHY: That's above my pay grade, Tucker. I wasn't thinkin' of the Bill of Rights when we did this. We went to all Dictatorship!
